

# ***Quality Policy***

Through the Amara raja Way , our aim is to exceed customer's expectations through a collective commitment to manufacture & market high quality sheet metal products, fasteners, plastic compounds & components, battery components, tools & molds, design & manufacture of integrated material storage racks in diligent & responsible manner.

## **To accomplish the above, we will focus on**

- Agile business strategies with risk based thinking and anticipating future trends
- Contemporary technologies and robust design principles
- Continuous enhancement of our individual engagement, development & performance
- Operational excellence through continual improvements

Quality planning is an integral part of our operations and this will be demonstrated by effective implementation of Quality Management System across the organization.
